

CAT AND DOG HOUSE LOCATION AND REQUIREMENTS

When finding the **RIGHT SPOT** for the doghouse or cat house, **PLEASE** consider the following:

The Doghouse or Cat house Should Be:

1. **Up against the humans' home, not out in the middle of nowhere.**
2. **Made of wood or other similar materials.**
3. **Set up off the ground a few inches.**
4. **Away from the direct wind**
5. **In a shady spot in the summer.**
6. **Insulated and filled with a type of bedding (i.e. straw)**
7. **Equipped with a door flap to keep out wind and snow in the winter.**

Make Sure:

1. **The dog and cat has fresh water in a tip proof, non metal dish, and that the water does not freeze in the winter. Make sure that your dog and cat has water at all times.**
2. **That they are fed properly.**
3. **That they are kept in good health.**
4. **The chain or rope used to restrain them cannot get tangled around objects or trees and bushes, and that it is at least 20 feet long.**
5. **The dog or cat is only left out for 20 minutes without shelter (weather permitting).**
6. **All outside Kennels (runs) must be at least 10 ft X 10 ft with a dog house attached to the outside to give the dog room for exercise.**
