

Pets Die in Hot Cars

it's a fact

On a 25°C day, the inside of a car will heat up to:

✗ it doesn't get very hot

✗ maybe 30°C in a half hour

✗ I left the windows open so it won't get hot

✗ it's better than leaving him home

✓ **50°C in minutes even with the windows open**

Now you know.

Please protect your pets this summer.
Don't leave them in the car, even for a minute.
